EDUCATION

Bennett University

B.Tech in Computer Science (AI Specialization) | CGPA: 8.6/10.0

Greater Noida, India

Aug. 2023 – May 2027

EXPERIENCE

Deep Learning Researcher

Bennett University

Aug. 2024 – Present

Greater Noida, India

- Analyzing Transformer Architectures and GenAI tokenization strategies to optimize LLM context efficiency by 2x.
- Engineering automated data pipelines in Python to preprocess 10,000+ data points for ML training.

Team Lead & AI Developer

Smart India Hackathon (SIH)

2023 – 2025

India

- Led cross-functional teams in 3 consecutive hackathons to build AI-led solutions under 36-hour deadlines.
- Enforced strict GitHub version control protocols, ensuring zero deployment conflicts during live pitches.

PROJECTS

DORA (GenAI Research Assistant) | *Python, GenAI, RAG, Prompt Engineering*

- Architected an advanced Retrieval-Augmented Generation (RAG) system using LLMs and Vector Embeddings.
- Decreased information retrieval time by 60% with a 95% context retention rate.

Trello Clone (Full-Stack) | *Next.js, JavaScript, Prisma, SQL, Bootstrap, Tailwind*

- Built a scalable task management architecture leveraging Next.js and a relational SQL database via Prisma.
- Designed responsive UI components utilizing Bootstrap and Tailwind CSS for seamless Kanban workflows.

Medical Chatbot | *Python, RAG, LLMs*

- Developed a specialized chatbot leveraging retrieval-augmented generation to provide accurate medication information.

TECHNICAL SKILLS

Languages & Databases: Python, C++, Java, JavaScript, SQL, MySQL

AI/ML: Generative AI, Deep Learning, TensorFlow, PyTorch, Transformers, RAG, Scikit-learn

Web Dev & Tools: Bootstrap, Next.js, Tailwind CSS, Prisma, Git, GitHub, VS Code
